

Raising the bar at airport terminals

airport 

EverSmart solutions bring cost and labor savings as they mitigate reputational risk and improve customer experience

In the world's best airports, EverSmart data insights are transforming facilities operations. Our solutions create actionable data for repeatable, enforceable performance, preventative maintenance and cleaning.

EverSmart Washroom allows supervisors to enforce brand standards to avoid a serious risk to customer loyalty by group sourcing preventative alerts on leaks, clogs and supply shortfalls before they damage property or reputations.

EverSmart Leak protects your assets from the No. 1 driver of damage in large infrastructure. Facilities staff are alerted when a problem begins to enable timely intervention.

EverSmart Rodent remotely monitors to provide 24/7 alerts on rodent activity. This provides a superior service with less rodenticide use and a lowered carbon footprint.

All your data in one secure place

Microshare's Platform integrates all this data as well as your legacy systems for seamless control, compliance and auditability with a SOC 2 certified defense against cyber risk.
